

What is COVID-19?

COVID-19 is a rapidly spreading respiratory disease in humans caused by a novel (new) coronavirus that is now circulating worldwide.

What Are the Symptoms of COVID-19?

- Fever
- Cough
- Shortness of breath

Can COVID-19 Virus Spread Through Pools & Hot Tubs?

- There is no evidence that COVID-19 can be spread to humans through the use of pools and hot tubs. Proper operation, maintenance, and disinfection (e.g., with chlorine and bromine) of pools and hot tubs should remove or inactivate the virus that causes COVID-19.

What Can Pool Operators and Staff Do to Protect Employees & Customers?

- Do not work if ill or if you have fever, cough, or shortness of breath
- Actively screen customers for fever, cough, or shortness of breath
- Clean and sanitize high touch point areas, such as handrails, key cards, door and faucet handles, etc. frequently using EPA approved chemicals:
 - <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>
- Encourage distance between people on the premises—6 feet or more is ideal
